We move the world, we move the world.

We move the world,  
we are the light,  
we sing all day,  
we sing all night.  
We touch the moon,  
the stars above,  
we sing for peace,  
we sing for love.

And the world shall see  
what can be done,  
to be together here  
as if we are one.  
All the bells will ring  
and the sun will shine  
right into our hearts,  
into yours and mine.

We move the world,  
we are the light,  
we sing all day,  
we sing all night.  
We touch the moon,  
the stars above,  
we sing for peace,  
we sing for love.

Open up your soul  
and spread out your wings,  
take all the joy and hope  
that music brings.  
All the clouds are gone  
when you take my hand  
and this song we sing  
will never end.

We move the world,  
we are the light,  
we sing all day,  
we sing all night.  
We touch the moon,  
the stars above,  
we sing for peace,  
we sing for love.
